fikry-nuhuman

Education

University of Peradeniya — Sri Lanka
B.Sc. (Hons) in Computer Engineering, Current GPA: 3.9/4.0 — 2023 – Present

Gampola Zahira College
G.C.E. Advanced Level, Z-Score: 2.67, Island Rank: 53, District Rank: 3 — 2019 – 2022

Professional Experience

Cloud-Based Shipment Management System — UAE / Remote
Software Developer (Freelance) — 2024 – Present

- Developed and deployed a full-scale cloud-based shipment management system with detailed reporting and a scalable database structure.
- Implemented automated handling of payment and invoice records.
- Currently used by a logistics company in the UAE as their main operational system.

OASIS AI Integrated Flutter App — University of Peradeniya
EngEx 2025 Presentation — 2025

- Designed and developed a Flutter frontend integrated with a Spring Boot backend for a medical AI application.
- Collaborated with dental professionals to present a live demonstration at EngEx 2025.

Point of Sale Systems — Sri Lanka / UAE
Software Developer — 2022 – 2024

- Installed, configured, and maintained multiple POS systems for retail clients.
- Analyzed client requirements and provided long-term technical support and updates.

Causal Instructor — University of Peradeniya
Department of Computer Engineering — 2024 – 2025

- Instructed laboratory sessions for Programming Methodology (CO222) – 2025.
- Instructed laboratory sessions for Programming for Engineers (CO1010) – 2024.

Selected Projects

Full-Stack Web Application
Cloud-Based Shipment Management System — 2023 – Present

- Designed and implemented a multi-user system to manage shipments, invoices, and payments, featuring real-time data visualization and analytics.

Inventory Management System
Fivestories — 2023

- Developed a large-scale inventory management platform supporting efficient stock tracking and reporting.

Production Management System
Kandhurata Umbrellas — 2022

- Built a medium-scale production monitoring system improving operational efficiency and data organization.

Web Application Development
Doha Consulting, Shopywin & Shopyads — 2023 – 2024

- Contributed to both backend and frontend development using Laravel, Node.js, and Flutter; implemented admin dashboards and client-side integrations.

3D Visualization Tool
3D Integrated Flutter App — 2024

- Integrated interactive 3D GLB file rendering and animation control in Flutter apps using model viewer.

Event Platform
Ruusara Digital Creation Competition Website — 2024

- Designed and deployed a website for managing digital content competitions with user submission and judging features.

Competitions

Aces Coders v11.0 — University of Peradeniya
Algorithmic Programming Competition, Finalist — 2024
Team: Algorithmic Avengers.

Aces Coders v10.0 — University of Peradeniya
Algorithmic Programming Competition, Finalist — 2023
Team: Infinite Coders.

IEEEXtreme 18.0 — University of Peradeniya
Algorithmic Programming Competition — 2024
Participated in the global challenge organized by IEEE and ranked among first 1000.

Research Experience

In collaboration with University of Pennsylvania — University of Peradeniya
Co-Author & Research Assistant — 2023 – Present

- Predicting Hip Fractures using Machine Learning Models link
- Predicting Osteopenia and Osteoporosis within 5 and 10 years – Predictive modeling using ML techniques. link
- Rib Fracture Detection in Chest X-rays – Deep learning–based image classification study. ISBI paper
- Scoliosis Detection using Image Transformers – Developed a data-e icient transformer model for radiographic analysis.link

Diurnal Variation of Clinical Biomarkers — BMES 2025 (Oral Presentation)
Accepted for oral presentation at the Biomedical Engineering Society (BMES) Annual Conference 2025, marking the first significant recognition of my research career in biomedical machine learning research. link

Skills

Programming languages: Python, C, C++, Java, JavaScript, Dart, Verilog HDL, ARM Assembly
Frameworks & Tools: Flutter, Node.js, Express.js, Spring Boot, Laravel, Docker, Git/GitHub
Core Competencies: Networking, Operating Systems, Database Design, Cross-Platform Development,
Soft Skills: Public speaking, Critical Thinking, Time Management, Teamwork, Quick Learning
Languages: Fluent in English, Sinhala and Tamil

Selected Certifications

Harvard University (Online): CS50x – Fundamentals of Computer Science and Programming
CS50W – Web Programming with Python and JavaScript
CS50AI – Introduction to Artificial Intelligence with Python
Coursera (Andrew Ng): Supervised Machine Learning, Advanced Learning Algorithms
Coursers - Google: Foundations: Data, Data, Everywhere
